

New with the Moores since January 2011

The last two years have been times of change and transition, as:

... Kevin became founding Dean of the College of Engineering and Computational Sciences at the Colorado School of Mines

... Tamra became supervisor of the Nursing Home Ombudsman Team at the Area Agency on Aging in Denver

... Julia finished an MS degree at Emory University and moved to UC Davis to study for a PhD in Population Biology

... Joshua graduated *summa cum laude* with a BA in English from the University of Colorado Boulder

... Lauren got her dream job at the Rundus Funeral Home

Yet, while we have been busy in all our various roles, as the Beatles said, we hope,

*"... in the end, the love [we] take is equal to the love [we] make."*

*wishing you and yours a very*

# MERRY CHRISTMAS

... oh, and we moved across town to a home with lots of room for guests, so come see us!

1019 24th Street, Golden Co 80401
